

# iBIOSDG 2021

1<sup>st</sup> International Conference on Biodiversity and Sustainable Development 2021

23-24 Nov 2021

virtual on

*Biodiversity in the 21<sup>st</sup> century: Transformation in Biological Diversity and Science in Supporting the Sustainable Development Goals,*

This 1<sup>st</sup> iBIOSDG 2021 aims to feature research and innovation that demonstrates the inter-connection links from diverse fields and disciplines to conserve and protect the ecosystem for the benefits of human life. It is recognized that biodiversity is one of the most powerful levers to achieve sustainability and provides an opportunity for interaction and exchange of ideas on the most appropriate ways of building bridges across universities, research institutions, government, industry and experts from around the world. The conference organizer is currently inviting relevant research papers, working papers, industry initiatives, graduate students research symposiums or presentation proposals to be presented and shared on this platform.

## TRACKS

1. Forest, Protected Area and Biodiversity
2. Coastal and Marine Biodiversity
3. Financing and Economy
4. Policy and Law
5. Local Community
